## **Your Opportunity to Experience an Inspiring and Fun-Filled Day of Soul Awareness and Personal Growth...**

**With Kevin J. Todeschi, author of twenty books, including: *Edgar Cayce on Vibrations* and *Edgar Cayce on the Akashic Records*.**

The impact of vibrations upon each and every one of us cannot be underestimated. For decades, in more than 2,500 readings Edgar Cayce explored vibrations as really the building blocks of all of Creation. Vibrations affect all that exists: people, locations, thoughts, everything! In fact, all of Creation is essentially a manifestation of One Force moving at different rates of vibration.

From Cayce's perspective, personal vibrations are as unique as a fingerprint; an individual's level of consciousness creates a vibration all its own. With that in mind, over a period of eleven years the Edgar Cayce readings explored a set of materials entitled "A Search for God" – the focus of which was raising personal vibration and enhancing individual spiritual and soul growth.

This day long program will explore the Cayce material on vibrations and soul growth. In fact, Cayce believed

that the growth of personal consciousness was the ultimate purpose of our existence. In hundreds of readings over a period of many decades, Edgar Cayce expounded upon three tools that he claimed would facilitate a growth in vibration and personal consciousness for each and every soul: the setting of spiritual ideals, the application of spiritual principles in the earth, and personal attunement with the divine. In addition to exploring these tools, this program will also feature hands on personal experiences that will enable you to:

- Take part in a psychic game that will provide you with insights into what you really need to be working on in terms of your own soul growth and development.
- Participate in the same chakra meditation experience that the Cayce readings designed for the original Glad Helpers Prayer Group, back in the 1930's.
- See how the meditation affirmations contained in the *A Search for God* material are essentially the encapsulation of the vibration associated with that level of consciousness.
- Examine how the Cayce readings explored Life Seals in terms of consciousness and soul growth, suggesting they embodied a visual depiction of the soul's hopes and dreams, as well as a reminder of the things needing to be worked on in this incarnation.

This special event will also examine case histories from the Cayce readings and provide you with personal suggestions for personal application and attunement.

*Don't miss this exciting event – a fun-filled day exploring your own soul growth and examining how you can apply spiritual principles in the earth, raising your consciousness and personal vibration in the process!*

**As both student and teacher of the Cayce material for thirty-five years, Kevin J. Todeschi has lectured on five continents in front of thousands of individuals.**
